Bally refrigeration systems are expertly selected to suit specific temperature, box and humidity conditions.

All Bally refrigeration systems are Pre-Assembled remote making installation quick and trouble-free. Pre-charged line sets are available.

There are virtually hundreds of different configurations utilizing single stage hermetic, semi-hermetic or scroll compressors.

3/4HP—3HP Medium and Low Temp compressors with matching coils are typically available in stock.

SmartVap™ is simple: Two Pipes, Two Wires and it's Done!

It electronically controls box temperature, defrost initiation, defrost termination, and fan delay.

SmartVap™ is adjustable : Factory Pre-Set to suit most applications, field adjustable for unique applications, with extremely simple user interface.

AVAILABLE ACCESSORIES/OPTIONS:

- Finishes: Embossed White or Aluminum
- Insulated floor panels
- Exterior ramps
- Pressure relief port
- Strip Curtains
- Observation windows
- Wire Shelving Systems
- Temperature recorders
- Temperature alarms
- **CooLogic™** refrigeration control

YOUR SOURCE FOR C-STORE COOLERS & FREEZERS

- The 3" panel from **Cold Vault** is ideal for the convenience store market. The 3" panel has the same 10 year factory warranty as the 4" panel.
- 3" panels have an R-Factor of 24. Up to 50% more insulation than wood frame or styrene products. Better insulation equates to less run time on the compressors and lower utility bills each month.
- BMIL International and **Cold Vault** can engineer the refrigeration for any C-Store application.
- For freezer merchandisers, **Cold Vault** can build a 4" freezer that will seamlessly transition to a 3" cooler to allow for proper insulation in both compartments.

<p>Cold Vault is ideal for:</p> <ul style="list-style-type: none"> • C-Stores • Restaurants • Hotels • Keg Coolers • Flake Ice Storage • Dough Retarders • Ingredient Storage Coolers 		<ul style="list-style-type: none"> • Ice Cream Parlors • Floral Coolers • Packaged Ice • Vegetable Coolers • Wine Coolers • Supermarkets • Beverage Coolers <p>What is <i>your</i> Cold Vault for?</p>
